## Processo criativo

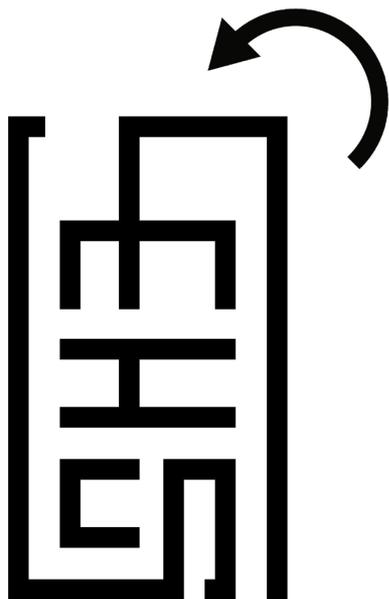

A identidade visual que criamos para esse projeto tem como base referências que absorvemos com a nossa visita ao prédio do CEHUS e também o que lemos sobre o mesmo. Um ponto realmente importante para o resultado do logotipo foram as plantas baixas que analisamos e que nos impulsionaram a produzirmos um trabalho mais geométrico. Portanto, as letras criam uma representação fictícia dos espaços do prédio multidisciplinar.

The Chairman

## Anyway, you are the designers you know what to do

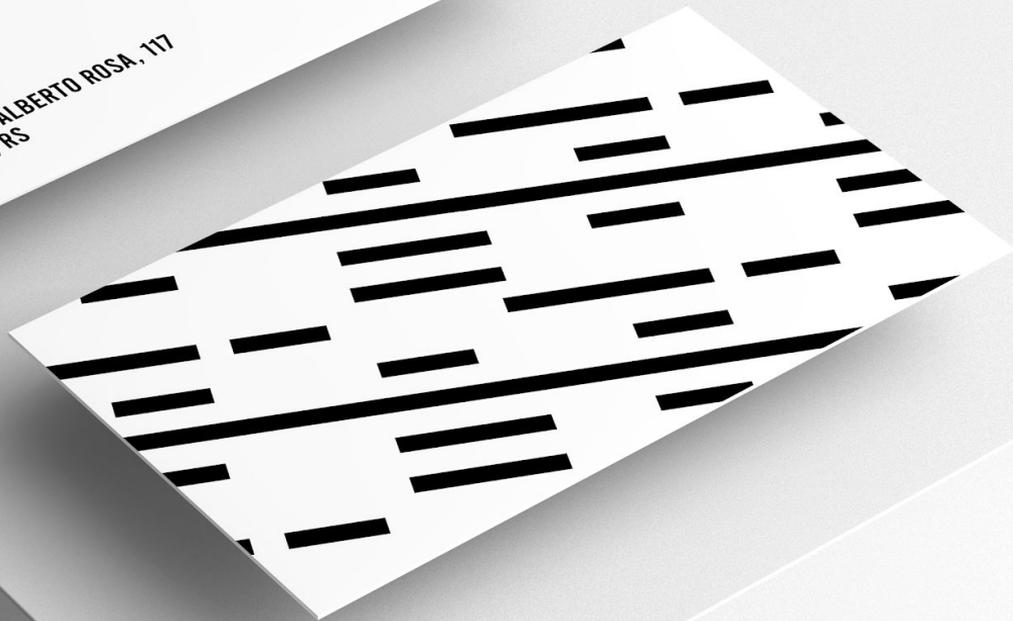

Anyway, you see the designer, you know what to do. I'm not really sure, I try something else, I was wondering if my car could be placed over the logo in the flyer that's great, but can you make it work for 2 please? I want you to make it to the next level. You are lucky to even be doing this for us, this is just a 5 minutes job.

We are a big name so have in your portfolio, I like it, but can the arrow look a little warmer? You are lucky to even be doing this for us, you start on it today and we will talk about what I want next time. I really think this could go viral, I know you've made sixty iterations but can we go back to the first one that was five bars version so can you help me out? Could you do an actual logo instead of a font? Can you pump the powerpoint? We need more geometry patterns, and we don't need a contract.

Could you rotate the pictures to show the other side of the room? Make it pop jazz it up a little. The concept of bars on, but can we look at a better execution? We need more images of groups of people having non-specific types of fun, so I think we need to start from scratch and there is too much white space. Ok, here it, let me tell you all this again so you can understand it better.

I like it, but can the arrow look a little warmer? You are lucky to even be doing this for us, you start on it today, and we will talk about what I want next time, I really think this could go viral, I think we need to start from scratch. The flyer should feel like a warm handshake.
