

CALL FOR APPLICATIONS MCTI/FINEP/FNDCT/THEMED CENTERS 2024

Letter of Expression of Interest

I hereby express my interest in the project **"Development of Sustainable Technologies for the Rice Production Chain: from the Field to the Table (TEC-Rice)"** from the Federal University of Pelotas and Delfim Mendes Silveira Foundation, registered under the CNPJ numbers 92.242.080/0001-00 and 03.703.102/0001-61, respectively, submitted to the public CALL FOR APPLICATIONS MCTI/FINEP/FNDCT/THEMED CENTERS 2024.

Interest in the object of the project:

Given the significant qualification, modernization, and expansion of the instrumental park, the possibility of expanding scientific collaboration and the services to be offered by the NATIONAL CENTER FOR INNOVATION IN SUSTAINABLE AGRI-FOOD SYSTEMS (CISAS), we express great interest in the project "Development of Sustainable Technologies for the Rice Production Chain: from the Field to the Table (TEC-RICE)".

Competencies related to the object of the project:

The research group of Bioinorganic Analytical Chemistry acts in the analytical and food chemistry area. It offers expertise in analytical chemistry techniques, mass spectrometry and chromatography for the analysis of biological and food matrices. Competencies include method development, sample preparation, data interpretation, quality control, and regulatory compliance. Strong problem-solving, collaboration, and innovation skills are essential denominators of the group.

Pau (France), 28 March 2025

Ryszard Lobinski

Research Director at the French National Center for Scientific Research (CNRS)

Group of Analytical Bioinorganic Chemistry at the Institute for Analytical and Physical Chemistry for the Environment and Materials (IPREM-UMR 5254)

Legal register number doesn't apply in France in this case
